

Taking Logistics to a HIGHER Level

PROUD TO BE 100% EMPLOYEE OWNED

Warehousing

We currently manage warehouses from 100,000 to 1.3 million sq. feet. Our warehousing operations provide savings to our customers by reducing floor space, labor and inventory management costs.

Inventory Management

Let us manage your inventory at one of our 13 business facilities as well as in your area. We have state-of-the-art systems in place to manage, track, & report the material status. We also utilize customer-host systems.

Sub-Assembly

We reduce the number of assembly steps required at the customer's factory by providing sub-assembly operations off-site. Whether it's built to stock or a fast-paced, high velocity just-in-time environment, we will provide you with quality-driven error-free assembly.

Sequencing

At SC2 we use a just-in-time system to ensure our customer's production lines receive the right parts, on time, every time.

On-Site Services

Janitorial, General Facility Maintenance, Paint Booth Maintenance, Grounds Maintenance & Filtration. Focus your attention on value-added core competencies while our on-site experts provide you with worry-free support.
